

ROHIT PREMCHAND JAIN

Mobile: +91-7744919256 | Email: jain74159@gmail.com | Location: Dhule, Maharashtra

Languages: English, Hindi, Marathi

EDUCATION

Bachelor of Engineering (B.E.)

Expected 2026

SNJB's K.B. Jain College of Engineering, Chandwad

Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Web Technologies

Higher Secondary Certificate (12th)

2022

Jahind Junior College, Dhule | Percentage: 71.67%

Secondary School Certificate (10th)

2020

Ekveera Vidyalaya, Dhule | Percentage: 76%

TECHNICAL SKILLS

Programming Languages: C, C++, Core Java, JavaScript (ES6+), HTML5, CSS3

Web Technologies: React.js, Node.js, Express.js, REST APIs

Databases: MongoDB, SQL (MySQL/PostgreSQL)

Developer Tools: Git, VS Code, Postman, Chrome DevTools

Concepts: Object-Oriented Programming, Data Structures, Algorithms, Responsive Web Design, Web3 Integration

PROFESSIONAL EXPERIENCE

Web Developer Intern

Month 2024

Softcrowd Technologies, Nashik, Maharashtra

- Developed user-friendly web interfaces using HTML5, CSS3, and JavaScript, improving user engagement
- Collaborated with cross-functional teams to debug and resolve frontend issues, ensuring optimal application performance
- Implemented responsive design principles to create seamless experiences across multiple devices and screen sizes
- Gained hands-on experience with modern frontend frameworks and version control systems

PROJECTS

E-Commerce Web Application | React.js, Node.js, MongoDB, Express.js

- Architected and developed a full-stack e-commerce platform with product browsing, shopping cart, and checkout functionality
- Built RESTful APIs using Node.js and Express.js for product management, user authentication, and order processing
- Designed and implemented MongoDB database schema for efficient data storage and retrieval of products and user information
- Created responsive frontend using React.js with dynamic product filtering, search capabilities, and real-time cart updates
- Implemented secure user authentication and authorization mechanisms to protect sensitive customer data

Business Landing Pages (Freelance) | HTML5, CSS3, JavaScript, Web3 APIs

- Designed and developed responsive landing pages for multiple clients, achieving 100% mobile responsiveness
- Integrated Web3 inquiry submission API to enable decentralized form submissions and client interactions
- Optimized page load times through code minification, image optimization, and lazy loading techniques
- Delivered pixel-perfect implementations matching client design specifications and brand guidelines

ACHIEVEMENTS & ACTIVITIES

- Successfully completed freelance web development projects, demonstrating client management and delivery skills
- Built multiple full-stack applications showcasing proficiency in MERN stack development
- Actively learning and implementing best practices in software development and system design

ADDITIONAL INFORMATION

Certifications: Web Development Internship - Softcrowd Technologies

Interests: Open Source Contribution, Competitive Programming, Web3 Technologies, Cloud Computing
